

THREE LITTLE FRIENDS 2 - SCALLY

Scally was my mother's lurcher, and I would often make the trip up to Ipswich to take her for a run in the forests and fields on the Suffolk east coast. She was the reason I came across the tree in Rendlesham Forest, in fact if I remember it was Scally who took me to the spot, running off after a scent. We were active together between the years 1999 – 2004, most of the time in the Rendlesham Forest. See for the story: <https://www.culture-crop.com/rendleshamforest.htm>
